📄 PROFILE

MCA graduate with hands-on exposure in full-stack development, IoT-based systems, and database management. Skilled in React.js, Node.js, and MongoDB with knowledge of REST APIs, JSON handling, and cloud basics. Strong problem-solving ability with a keen interest in building scalable and data-driven applications.

🧠 SKILLS

Programming Languages :

Python, R Programming, PHP, Julia , JavaScript

Frontend :

HTML, CSS, React.js, Bootstrap

Backend :

Node.js, Express.js, REST APIs

Database :

MySQL, MongoDB

UI/UX Tools :

Git, GitHub, VS Code, Figma, Visily, Relume

Data & Analytics Tools :

Microsoft Excel and Power BI (Basic)

🧩 INTERNSHIP

02/2026 – Present
Bangalore

S-Vyasa Deemed to be University (Web Developer Intern)

- Built responsive web pages using React, HTML, CSS
- Integrated APIs and handled JSON data
- Improved UI performance and fixed bugs
- Used Git for version control and collaboration

04/2025 – 05/2025
Bangalore

Mindset IT Solutions & Consultants (Artificial Intelligence & Machine Learning Intern)

- Developed Python-based ML features
- Processed and validated data
- Solved real-world problems using AI concepts

📄 CERTIFICATES

- Software Programmer Java
- Internet of things(IoT) and it's applications: A hands on approach
- Software Testing Case Writing
- Fundamental of NLP; Representing Text as Numeric Features
- Industrial Insights of R Programming for Data Science
- Julia - A New Age of Data Science
- UX and UI - Desinging with Color Theory

PROFESSIONAL EXPERIENCE

07/2023 – 01/2026
Bangalore

Navami Technical & Services **(Administrative & Billing Executive)**

- Managed records, billing, and data validation
- Coordinated with teams and handled reports
- Improved workflow efficiency

PROJECTS

AeroSense (IoT Air Quality Monitoring System)

- Developed IoT-based system for real-time air quality monitoring
- Integrated sensors with mobile app (React Native)
- Implemented ML model for air quality prediction
- Enabled alerts for asthma/allergy-sensitive users

Cloud Based ERP for Small Business (EduNexus)

- Built full-stack ERP using React, Node.js, MySQL
- Developed REST APIs and handled JSON data
- Implemented role-based authentication

Food Donation (Dishtribute)

- Created platform connecting donors and receivers
- Built backend APIs and database integration
- Added location-based functionality

Music App (Soul Sounds)

- Developed web app with audio playback features
- Designed responsive UI and managed JSON data
- Implemented basic audio controls (play, pause, playlist) and optimized performance for smooth playback

EDUCATION

2024 – Present
Bangalore

Master of Computer Applications
S-vyasa School of Advance Studies
(Deemed to be University)
Pursuing MCA (AI, ML & Data Science)

2021 – 2024
Bangalore

Bachelor's of Computer Application
Bangalore Institute of Management Studies
(Bangalore University)
Secured 71.15%

2019 – 2021
Bangalore

Pre University
KTSV PU college for Women
(Karnataka Education Examination Board)
Secured 76%

2017 – 2018
Bangalore

Secondary School Leaving Certificate (SSLC)
Pine Woods English High School
Secured 75.36%
