👤 PROFILE

MCA graduate specializing in Artificial Intelligence, Machine Learning and Data Analytics. Skilled in React.js, Node.js, SQL, and Python with hands-on experience in building scalable applications and machine learning models. Eager to contribute to innovative projects as a fresher.

🧠 TECHNICAL SKILLS

Frontend Development

- HTML, CSS, Bootstrap
- React.js (Responsive UI, Component-based design)

Backend Development

- Node.js, Express.js
- REST API Development & Integration
- JSON Data Handling

Databases

- MySQL (Schema design, Query optimization)
- MongoDB (NoSQL, Document-based storage)

Tools & Platforms

- Git, GitHub (Version Control & Collaboration)
- VS Code, Figma, Visily, Relume (UI/UX & Prototyping)

Data & Analytics

- Python, R Programming,
- Microsoft Excel (Data cleaning, Pivot tables)
- Power BI (Basic dashboards & visualization)
- Machine Learning (Model building, Data preprocessing)

🏢 INTERNSHIP EXPERIENCE

Web Developer Intern (S-Vyasa University)

02/2026 – 05/2026 | Bangalore

- Built responsive web pages using **React.js, HTML, CSS**
- Integrated **REST APIs** and improved UI performance

IoT & ML Intern (Acutro Technologies)

10/2025 – 01/2026 | Trivandrum

- Designed **IoT-based AeroSense system** for real-time air quality monitoring
- Implemented **ML prediction models** and alert notifications

AI/ML Intern (Mindset IT Solutions & Consultants)

04/2025 – 05/2025 | Bangalore

- Developed **Python-based ML features**
- Processed datasets and applied **AI concepts** to solve problems

🎓 EDUCATION

MASTER OF COMPUTER APPLICATION

S-Vyasa (Deemed to be University), Bengaluru
2024-2026

Percentage : 86.5%

BACHELOR OF COMPUTER APPLICATIONS

Bangalore Institute of Management and Studies
2021-2024

Percentage : 71.15%

📁 PROJECTS

AeroSense (IoT Air Quality Monitoring System)

- Developed an IoT-based system for **real-time air quality monitoring**.
- Integrated sensors with a **React Native mobile app** for visualization.
- Implemented **machine learning models** for air quality prediction.
- Enabled **alert notifications** for asthma/allergy-sensitive users.

EduNexus (Cloud ERP for Small Business)

- Built a **full-stack ERP application** using **React.js, Node.js, and MySQL**.
- Designed and implemented **REST APIs** for data handling.
- Developed **role-based authentication** to ensure secure access.

Dishtribute (Food Donation Platform)

- Created a platform connecting **donors and receivers** for food distribution.
- Built **backend APIs** and integrated with **MongoDB database**.
- Added **location-based functionality** for efficient donor-receiver matching.

Soul Sounds (Music Web App)

- Designed and developed a **responsive web app** with audio playback features.
- Implemented **playlist management and audio controls** (play, pause, skip).
- Optimized performance for **smooth user experience** across devices.

✍️ DECLARATION

I hereby declare that the information provided in this resume is true and correct to the best of my knowledge.
